ZAPATOS

the lounge

a tribute to the slipper orchids of Borneo

Borneo's emerald rainforests and rugged mountains are some of the most diverse in the world, with an incredible array of plants and wildlife; so much so that Sir David Attenborough has described the island as one of the planet's "richest treasure-houses".

Zapatos (Slippers) lounge is our way to honour the many native species of the slipper found in Borneo. The rarest are the Paphiopedilum Rothchildianum found in Mount Kinabalu Sabah and Paphiopedilum Sanderanium found in Gunung Mulu Sarawak.

Patrons who would like to know more or have a chance to see the orchids in real life can visit the Orchid Park 500 yards away across the Darul Hana Bridge on the other side of the Sarawak River. Owned by the Council of Kuching North and operated by the family of the late Datuk Au Yong Nang Yip, who from his passion in orchids created Orchidwoods, a world renowned orchid company. The company continues to this day under his son Au Yong Kien Chung.

Visitors will be treated to a collection of 75,000 plants comprising 82 general in a 16 acre feast for the eyes.

Paphiopedilum Orchids

PAPHIOPEDILUM, OFTEN CALLED THE VENUS SLIPPER, IS A GENUS OF THE LADY SLIPPER ORCHID SUBFAMILY PRIPEDIOIDEAE OF THE FLOWERING PLANT FAMILY
